

Dear FCC,

I strongly object to the abuse of the public airwaves about to be conducted by Sinclair Broadcasting Corp. as they attempt to get away with forcing all of their affiliate stations to misrepresent an entirely partisan distorted political attack piece against Presidential candidate John Kerry ("Stealing Honor") as an objective "news" program. Such an intrusion by top corporate management to supercede the legitimate judgments of their station news editors is entirely outside of even rather lax professional standards of mainstream corporate media. I think if this move were thoroughly investigated, there would be grounds for legal action. Please take some action on this immediately. And I do expect a reply. Thank you. -Richard Seyman
